

Great Tasting Water ... For Only Pennies A Day

Better Water at Your Fingertips!

- Eliminate bad taste & odors
- Remove impurities as small as an atom
- Drink more water and less pop!
- Use for soup, juices, coffee & tea, ice cubes ...even watering your plants.

Four Stage Reverse Osmosis System:

1. A **pre-filter** removes silt, sediment, sand, and other particles
2. An **activated carbon pre-filter** traps minerals and contaminants such as chromium, mercury, copper, chlorine, chloramine and pesticides.
3. Water then passes through the **RO membrane**, allowing only clean water to pass through the small pores. Impurities are trapped and flushed down the drain. Treated water is then sent to a storage tank.
4. Treated water passes through another **activated carbon post-filter** before use to give the water a final polish.

Reverse Osmosis

Features:

- TFC reverse osmosis membrane provides up to 99% Total Dissolved Solids (TDS) rejection
- 50 & 75 USGPD models
- Pre-filters 10" five (5) micron Spun Polypropylene Sediment Cartridge and 10" Activated Carbon Cartridge
- Post filter: 10" Activated Carbon Cartridge
- Non air gap chrome plated faucet
- 3/8" outlet tubing for higher flows
- Automatic shut-off valve
- Stainless steel product water check valve
- Quick connect fittings for ease of installation
- Powder coated bracket
- 3.8 gallon plastic storage tank

Item #	Description
20010001	4 stage 50 gallon RO system
20010002	4 stage 75 gallon RO system
20010003	4 stage 50 gallon RO system w/Booster Pump

* CP-1 Ultraviolet Disinfection System also available (Item # 40010006). Perfect for POU post RO applications

Model #20010003 Features:

- Reverse osmosis membrane, nominally rated at 75 U.S. gallons per day
- Booster Pump: Mounted on RO to maintain constant water pressure
- Raises water pressure to ideal level for maximum efficiency
- Use on rural supplies with low pressure or high TDS
- Self-priming and whisper quiet
- Runs on a 24VAC transformer (included) from a standard 120VAC electrical outlet
- Systems includes: Flexible mounting plate, quick connect fittings and pressure shut-off switch
